

Nevada Department Environmental Protection
Mr. Verne Rosse, P.E.
201 South Fall Street
Capitol Complex
Carson City, Nevada 89710

March 30, 1989

Dear Verne:

Attached please find the Part A Permit Application and drawings for interim status of the ETICAM facility per requirements of 40 CFR 270.72. The interim status is for the following areas of the ETICAM facility:

Item A. New storage pad located at the south east corner of the property. This area is for the storage of the salts being produced at the crystallizer. This area is to contain all salts produced at the facility until disposed of in the most conservative, efficient, and environmentally safe manner.

Item B. Structure and operation of the evaporator and crystallizer area. The initial request for modifications of this area was on May 16, 1988 (see attached letter).

If any question should arise please feel free to contact the facility at your convenience.

Thank-you.
Sincerely.

Deborah L. Howard
Environmental and Safety Manager
